About Me

Hey there! I'm a super creative and versatile designer with over 20 years experience in 3D modeling, motion design, illustration, and graphic design. **I'm not just your average creative**—I bring a ton of people skills to the table, **PLUS** I'm like the swiss army knife of software knowledge. Thinking outside the box is my jam and my attention to detail is off the charts.. Oh, and did I mention I thrive in those nail-biting, deadline-driven situations? Yep, I'm your guy for that too!
